Erasmus+ opportunities for bringing innovation and enhancing quality in education

Erasmus+

WHO ARE WE?

- Our Association; is a non-governmental organization founded by teachers in 2018, supporting people of all ages, especially innovative and entrepreneurial youth. We help the development of our societies with local and international projects.

WHAT ARE WE DOING?

- We are an organization that creates innovative opportunities for individuals who want to learn something new and gain new experience and knowledge for personal and professional development.

OUR FOCUS POINT

- The focus of our work is mostly; on active citizenship skills such as digital competences and entrepreneurship.

IMPROVING DYNAMICS

- TECHNOLOGICAL DEVELOPMENTS
- SOCIAL EVENTS
- CHANGING NEEDS

WHY INNOVATION?

- The developing dynamics that we have just mentioned bring about changes in the needs and learning characteristics of individuals, that is, people.
- According to me; This is where «INNOVATION» becomes very important. Because it is necessary to give different answers to different changing needs.

- So what are these needs and how can they be answered?
- Today, the concept of lifelong learning and active citizenship is given great importance.

WHY LIFE LONG LEARNING?

- The European Union wishes to support and strengthen the development of key competences and key skills for all, from an early age and throughout life.
- To ensure this;
- It attaches importance to lifelong learning that will enable the acquisition of key competences and basic skills.

KEY COMPETENCIES AND THEIR IMPORTANCE

- Literacy competence
- Multilingual competence
- Mathematical competence and competence in science, technology and engineering
- Digital competence
- Personal, social and learning to learn competence
- Citizenship competence
- Entrepreneurship competence
- Cultural awareness and expression competence

So why are they important?

Because, they are the basic milestones in the acquisition of active citizenship.

OPPORTUNITIES TO ACCESS ACTIVE CITIZENSHIP SKILLS

- So, in what ways can these competencies and skills be gained/acquired?
- Or;
- How should it be encouraged?

According to the Council of Europe Recommendation approach, the development of key competences and skills is promoted by:

- To provide high quality education, training and lifelong learning for all;
- Support education staff in applying competency-based teaching and learning approaches;
- Promote diverse learning approaches and contexts from a lifelong learning perspective;
- Explore approaches to assessing and validating key competences.
